TECHNICAL SKILLS

PROGRAMMING	Proficient in C, Python, Java, JavaScript, TypeScript; Experience with Ruby, Dart
DATABASES	PostgreSQL, MySQL, SQL Server, MongoDB, Firebase, Supabase
FRAMEWORKS & LIBRARIES	Django, Node.js, Express.js, React Native, Expo, Flutter
DEVELOPMENT TOOLS	Git, VS Code, IntelliJ IDEA, Postman, JUnit, Figma
SYSTEMS & NETWORKING	AWS (S3, EC2), Wireshark, GNS3

EDUCATION

Computer Systems Technology Diploma, British Columbia Institute of Technology **Jan. 2024 – Dec. 2025**

Key Course Content:

- Systems Programming: Python and C Programming
- Data Structures and Algorithms: Foundation for efficient system design
- Networking and Data Communications: Protocol implementation and network architecture
- Database Systems: Relational database design and performance optimization

B.A. in Criminology, Law and Society, University of California, UC Irvine **Sept. 2017 – Dec. 2020**

- Dean's Honor List, School of Social Ecology (Year of 2019, 2020)

PROFESSIONAL EXPERIENCE

Full Stack Mobile Developer (Freelance) **May 2025 – Present**

Construction Industry Client

- Develop cross-platform mobile application using React Native and Expo with TypeScript
- Build secure backend with Node.js, Express.js, and PostgreSQL, implementing JWT authentication and bcrypt hashing
- Integrate AWS S3 with presigned URLs for secure file operations and optimize performance

Upwork Enterprise Services **Mar. 2022 – Jul. 2023**

Independent Contractor with Upwork

- Executed 40-hour/week contract supporting Upwork Enterprise Services
- Contributed to Data Curation and Localization projects for a key enterprise account of Upwork
- Maintained comprehensive documentation for all developed systems and processes

FUNDAY English Digital Education Program **Oct. 2020 – Aug. 2021**

Online Program Instructor

- Designed and delivered interactive English lessons, evaluating student progress using CEFR standards

International Peer Group, UC Irvine **Sept. 2018 – Jun. 2019**

Program Mentor

- Mentored international freshman students and collaborated with mentors to create networking opportunities

BookAnyone **July 2018 – Dec. 2018**

Start-up Tech Company Intern

- Researched digital marketing strategies, maintained blog content, and organized meeting agendas

PROJECT EXPERIENCE

TadPool Dating App – Industry Client Project

Apr. 2025 – May 2025

Team Developer

- Collaborated in 5-person Agile team delivering Android application through 4-sprint development cycle
- Enhanced Django backend, implemented Flutter frontend with AWS S3 integration
- Applied testing methodologies and delivered MVP to industry stakeholder

Enactus BCIT – “EcoMeter”

Oct. 2024 – Apr. 2025

Team Developer (Database Focus)

- Developed backend infrastructure using Ruby on Rails for sustainability evaluation system
- Implemented efficient data storage and retrieval techniques for local restaurant sustainability metrics

Autonomous Drone App – “Dronify”

May 2024

Team Developer (Frontend Focus)

- Designed and developed an application based on the social norm thirty years from now. Conducted user research & user testing, developed personas and user stories, and designed wireframes.
- Implemented user authorization and authentication in the backend using MongoDB.

Well-being Index App – “Neighbourly”

Jan. 2024 – Apr. 2024

Full Stack Developer

- Developed a web app that allows users to gain an overview of the 22 neighbourhoods in the city of Vancouver.
- Integrated and programmatically accessed Mapbox API for graphical representation of data.

RELEVANT COURSEWORK

Computer Systems Technology – Data Communications

Jan. 2025 – Apr. 2025

- Studied TCP/IP protocol suite and network layer protocols (physical, data link, network, transport)
- Learned analog/digital transmission, multiplexing/switching techniques, and error detection/correction
- Analyzed multiple access protocols, UDP/TCP protocols, and LAN/WAN networking architectures

Computer Systems Technology – Database Systems

Jan. 2025 – Apr. 2025

- Implemented relational algebra and advanced SQL using Microsoft SQL Server and Oracle DBMSs
- Applied conceptual, logical, and physical data modeling with functional dependencies and normalization
- Optimized database performance through hashing, indexing, and external sorting techniques

EXTRACURRICULAR EXPERIENCE

Women in Computing, BCIT

Jan. 2024 – Present

- Advocate for empowering women in the tech industry and connect with female professionals in Vancouver's tech community

BCIT Computing Club

Jan. 2024 – Present

- Participate in community building and serve as active member of Computing Club Buddy Program

International Center, UC Irvine

Sept. 2018 – Dec. 2018

- Instructed as a Teaching Assistant for a course catered towards international freshmen students
- Coordinated major school club representatives to attend class in a guest panel discussion
